RE: Home and Community-Based Service Provider Cost Reporting

As you know, the HCBS cost reports were originally due to be submitted to DHH by November. However, DHH has worked with providers to simplify the cost report and will be issuing the new cost report soon. The new due date will be March 31, 2014. In the very near future DHH will release the new cost report to you and will be announcing training sessions. We appreciate your patience.
